I have a feeling that this next month will fly by! We have a lot going on in a short amount of time. first we have chapel which is about being thankful to God. Then we have our yearly thanksgiving feast, which is really more like a big snack. But families are invited to come see the children in a little program before the "feast" and then everyone will come back to our classroom and enjoy eating snack together. After snack time families are free to go and we will continue our class as normal. More details about feast will be coming out so be on the look out. Then we all get a Thanksgiving break and when we come back we will hit the ground running with winter and Christmas right around the corner.
