Nov. Highlights

The scarecrows displayed in our classroom show our student's gluing, cutting, and creating. These have such character. Please look on the ribbon in class!

The watercolor mural displayed in the hall was created by rubbing over leaves with crayon and then painting with watercolors over the top.

Each morning, we wake up our brains and bodies with songs and movement like: Walk/Stop, Waddleachya, Freeze, I Know A chicken, and (Student's Name)Has a Turkey on Her Head.

In science, we tested what magnets will pick up like nuts, bolts, screws, beans, vehicles, play food.
